REMARKS

The amendments to the specification add a cross-reference to related applications and insert into the specification a paper copy of the substitute sequence listing. The substitute Sequence Listing has been corrected to explain the source of genetic material in <220> to <223> for SEQ ID NOs 1 and 2.

Applicant has also amended claims 1-3, 4, 6, 7, and 9-11 to clarify or modify the subject matter the protection of which is sought (claims 1, 3, and 7), to remove multiple dependency and revise claim dependency (claims 7 and 11), to comply with U.S. practice (claims 2, 4, 6, and 10), and to correct a typographical error (claim 9). Of note, support for "expression vector" recited in amended claim 7 can be found in original claim 8.

Applicant has further added new claims 12-16. Support for the new claims can be found in the English version of the specification. See, e.g., page 7, lines 8-14; page 8, lines 1-12 and Table 1; page 10, line 12 through page 16, line 4.

No new matter has been introduced by the above amendments.

Following entry of this amendment, claims 1-16 will be pending. Applicant asks that all claims be examined in view of the amendment to the claims.
